

# LEASE CRUTCHER LEWIS IS COMMITTED TO ZERO INCIDENTS ON ALL PROJECTS

At Lewis, safety is not a department. It is not an individual. It is not a field issue. Every one of us is personally accountable for protecting ourselves and our co-workers from harm, and mutually committed to safe execution. We provide the leadership and teamwork to create a workplace that is free of incidents and injuries. Because we are a family at Lewis, when we observe an unsafe situation we take action as we would for any family member.

In this work environment:

- We take the **time** to do the job safely – **every day**.
- We **choose** to work safely because we want to, not because we are told to.
- We always seek out the **safe course** in performing our daily operations.
- We **communicate** with one another openly and honestly, in a spirit of care and concern.
- We **continuously** develop and **improve** upon **work processes** that will help us work safely.
- We use **equipment, tools, and materials** that most effectively insulate us from harm.
- We **stop** unsafe actions without fear of repercussion.
- We **elevate** safety issues that we cannot resolve on our own to a senior leader.
- We expect all **vendors and subcontractors** to commit to zero incidents.
- We raise safety awareness as a part of our everyday life at work, at **home**, and on the road.

**LEWIS**  
**SAFETY**  
WORKING SAFE FOR LIFE
